GISATEX® ANTISLIDE MARINE FLOOR

GISATEX® ANTISLIDE MARINE FLOOR is a resilient floor covering for all yachts. The thickness of only 2mm offers a simple processing.

The material can fit to the hull shape perfectly and is easy to work with. The deck is sealed against water and dampness. Surface 100% PVC.

Delivery width approx. 140 cm. Resistant to temperature extremes, salt water and ultra-violet light. The pimpled surface profile lends the material its non-slip quality and pleasant underfoot feeling!
